

TOWN CAPTURED.

Santo Tomas is Taken by Gen. Wheaton's Force After a Severe Engagement.

THE PLACE PARTIALLY DESTROYED.

The Commissioners Announced Wednesday That They Came as Representatives of Aguinaldo.

Gen. Otis Addressed to His Refusal to Recognize the So-Called Government of the Insurgents—The Release of Spanish Prisoners.

MANILA, May 4.—At noon Thursday Gen. MacArthur was assaulting the town of Santo Tomas about five miles northwest of Calumpit.

The Americans are fighting for the bridge and the rebels are burning the town.

LONDON, May 4.—Advices have been received from Manila that Gen. Wheaton captured Santo Tomas after a severe fight with the insurgents. The town was nearly destroyed by fire.

Lawton's brigade is advancing toward Masin, where the insurgents are expected to make another stand.

MANILA, May 4.—The Filipino envoys, Maj. Manuel Arguilles and Lieut. Jose Bernal, have abandoned the pretense under which they came to Gen. Otis that they represented Gen. Antonio Luna, and Wednesday they announced that they came as representatives of Aguinaldo himself. The emissaries used all their wiles to secure a reply from Gen. Otis to the letter from Senator Mahini, Aguinaldo's "prime minister and minister of foreign affairs in the dictator's cabinet," which they presented to Gen. Otis on Tuesday; but Gen. Otis refused to make any reply on the ground that it would be equivalent to a recognition of the so-called government of the Philippines.

There was a conference lasting several hours Wednesday between Maj. Gen. E. S. Otis and the envoys who came from Gen. Antonio Luna, bearing a proposal for a cessation of hostilities.

Gen. Otis adhered to his refusal to recognize the so-called government of the insurgents.

The Filipinos now ask for a truce of three months to enable Aguinaldo to summon the congress and consult with the insurgent leaders and others of the island. The envoys admitted the contention of Gen. Otis that Aguinaldo has little control over affairs outside of the island of Luzon.

The question of the release of Spanish prisoners in the hands of the Filipinos mentioned, Maj. Manuel Arguilles, the chief member of the deputation, said that he considered them as being in the same category with the Americans the United States being the successor of Spain in dominion over the island and acquiring by treaty all Spanish rights and obligations.

A TRAGEDY IN CHICAGO.

Counted by a Married Man, Mabel Burke, on Learning the Fact, Fatally Wounded Her Lover and Then Killed Himself.

CHICAGO, May 4.—David J. Wile, an attorney, lies at the Post Graduate hospital, fatally wounded by a bullet shot fired by a young woman named Mabel Burke. After wounding Wile, Miss Burke shot and killed herself. Mabel had been courted by Wile, a married man, and the information that he was married was given to her by Wile's wife. Mabel then enticed Wile into a hotel, and while he was playing for her on the piano, she fired three bullets into him, producing fatal wounds. She then killed herself, and was found at his feet.

SECRET DOSSIER.

Gen. Merceir Testifies That He Destroyed Report Concerning It In Gonsse's Presence.

THE DREYFUS REVISION INQUIRY.

Slowly But Steadily the Net Is Closing Around the French General Staff in the Scandal.

It Was Proved The Maneuvers Notification Was Dated May 17—Dreyfus Could Not Have Written, "I Am Starting for the Maneuvers" in August.

PARIS, May 4.—Slowly but steadily the net is closing around the French general staff in the Dreyfus revision inquiry. Gen. Merceir, who is minister of war, at the time Dreyfus was condemned, on being called upon by M. De Freycine, the present minister of war, to produce the report regarding the secret dossier which Lieut. Col. von Paty De Clam testified he had sent to Merceir, he testified that he had destroyed it, and he called Gen. Gonsse as a witness to the truth of the statement.

Unfortunately for Merceir, Gen. Gonsse had already testified before the court of cassation, although Merceir destroyed the original, he kept a copy. Another anti-Dreyfus argument has received its death blow. Gen. Zurlinden, military governor of Paris, and others, while testifying before the court of cassation, attached great importance to the closing sentence of the dossier. "I am starting for the maneuvers," as proving the guilt of Dreyfus and the innocence of Esterhazy, inasmuch as the staff probationers were only notified on August 29 that they would not be required to attend the maneuvers.

It has now been proved that this notification was actually dated May 17. Therefore, Dreyfus could not have written, "I am starting for the maneuvers," in the following August. It is rumored that it was Lieut. Col. von Paty De Clam himself who communicated to the Figaro the depositions made before the court of cassation.

DAY OF FASTING AND PRAYER.

The National Afro-American Council of the United States Sets Apart Friday, June 2, for That Purpose.

NEW YORK, May 4.—The National Afro-American council of the United States has issued a proclamation calling upon the colored people of this country to set apart Friday, June 2, as a day of fasting and prayer, and has called upon all colored ministers to devote the sunrise hour of the following Sunday, June 4, to special exercises in honor of the Father of Mankind, may take our deplorable case in his own hands and that if vengeance is to be meted out, let God Himself repay."

The proclamation invites all the colored clergy of all denominations to cooperate and consists of a lengthy statement forth of the present "indescribable barbarous treatment" of the Negro in this country. Reference is made to the loyalty of the Negro in foreign wars and the recent lynchings of the colored persons in the south are denounced in the most strenuous language.

SEVERE WISCONSIN STORMS.

Hailstones an Inch in Diameter Fell at Black River Falls—Bridges and Dams Were Washed Away.

LACROSSE, Wis., May 4.—Nearly an inch of rain fell in 15 minutes Wednesday. The rain was accompanied by hail which broke thousands of panes of glass in conservatories.

At Pittsfield, Wis., during a severe storm of wind, hail and rain several buildings were blown down, including the shingle sheds of E. W. King & Co. Part of the roof of the Johnson house was also torn off.

At Black River Falls, Wis., the severest storm in years visited that place. Hail stones an inch in diameter fell. Several buildings were struck by lightning and bridges and dams were washed out.

THE ANTI-IMPERIALISTS.

The League Urges the President to Offer the Philippine Government With a Drawal Within Five Years.

BOSTON, May 4.—The executive committee of the Anti-Imperialist league state that their recent recommendation to the president was misinterpreted in a manner which perverted the meaning of it. It is explained that the suggestion was not that the small islands should be kept, but that the Philippine government should be asked to cede to us one small island as a coaling station.

The dispatch read as follows:

"To the President: We urge you to offer the Philippine government with a drawal in five years, giving it meanwhile moral support, the Philippine government to reimburse our payment to Spain. The United States to keep small islands."

An Armistice in Samoa.

APIA, Samoa, April 27, via Auckland, N. Z., May 4.—Matafua, the rebel chief, has accepted an armistice. The Germans, however, declined to sign the proclamation.

THE SWEAT SHOP.

Public Hearing of the Industrial Commissioner Resumed in Washington.

CHILD LABOR EMPLOYED IN ILLINOIS.

Practically All Ready Made Clothing in Chicago is Sweat Shop Work—Pure and Simple.

Conditions Surrounding the Work Were Unsanitary and Harmful to a Marked Degree, According to the Testimony of Factory Inspector.

WASHINGTON, May 4.—The industrial commission resumed its public hearing in its headquarters at the Bliss building Wednesday. The first witness was Florence Kelly, for four years chief factory inspector of Illinois. Her statement dealt particularly with sweat shops in Chicago. She painted the picture in dark colors. Of the 200,000 factory workers in Illinois, she said 150,000 were in Cook county. Practically all the ready made clothing and much of the so-called merchant tailor work of the city was sweat shop work and simple. The conditions surrounding the work were unsanitary and harmful in a marked degree. Child labor, she said, was also used in direct defiance of the 14-year age limit in force in the state. She said the employees had no difficulty in evading this law and securing age certificates for the children.

Many of these little ones, she declared, worked for the first year for nothing with the promise of a dollar a week at the end of that time, and ultimately, perhaps, \$3 to \$4 per week when they had reached the top of the ladder in their line. She strongly advocated the passage of a law similar to the general provisions to the Sulzer act now in force in New York.

The commission has received word from Chief Comm. Dodd, of the Standard Oil Co., assuring them that John B. Koefelt and others of the company will be pleased to comply with the commission's request to appear in Washington between the 10th and 20th of May.

STRIKERS ARE FORTIFIED.

Field Pieces Have Been Ordered to the Idaho Riots—Colored Soldiers Instructed to Intrench.

BOISE, Ida., May 4.—A most alarming dispatch was received from Warder, stating the union miners were marching in large force on the company of the 24th infantry, colored, that arrived there during the day. Gen. Merriam wired orders to intrench and hold the fort at all hazards until Wednesday, when reinforcements will be at hand.

The governor will declare the county under martial law, notwithstanding the refusal of the county officers to take the preliminary steps required by law. Gen. Merriam will take complete control. He will preserve order and make wholesale arrests.

It is understood the land of men who left Warder Monday have completed a natural fortification in a narrow defile, where a small band of determined men could hold at bay a large force. In view of this information, Gen. Merriam will take with him some field pieces.

Gen. Merriam has left for the Couer d'Alenes. He is escorted by Troop F, 4th cavalry, from Boise barracks. Boise, Idaho, May 4.—Gov. Steunberg Wednesday night issued a proclamation declaring Shoshone county in a state of insurrection. This will result in placing the government of the county in so far as may be necessary, under military rule.

ATKINSON'S PAMPHLETS.

Secretary Long Intimates That the Administration Does Not Think of Interfering With Them.

MINNAPOLIS, Mass., May 4.—John D. Long, secretary of the navy, was asked Wednesday for an expression of opinion in regard to the exclusion of Edward Atkinson's pamphlets from mails destined for the Philippines. The secretary replied: "The administration would no more think of interfering with the personal liberty of Edward Atkinson than with that of Daniel Pratt, the greatest American traveler, if he were still alive."

Tillman to Study Tobacco Culture.

COLUMBIA, S. C., May 4.—Senator Tillman left for Florence Wednesday to study the culture of tobacco. He proposes to make some experiments with the plant on his farm at Trenton. He has about sixty acres to devote to its cultivation.

Man Devoured by a Shark.

NICE, May 4.—The valet of the earl of Strathmore and Kinghorn, while bathing at Bordighera, near Monte Carlo, was devoured by a shark. The tragedy occurred in the presence of a crowd of onlookers who were unable to rescue the victim.

Atkinson Pamphlets Seized.

SAN FRANCISCO, May 4.—The local post office officials Wednesday seized some of the pamphlets sent out by Edward Atkinson, vice president of the anti-imperialist league of Boston.

GEN. MILES WAS WRONG.

The Report of the Beef Court of Inquiry Will Be Made Public Soon—It Is Satisfactory to the President.

WASHINGTON, May 4.—The president sat up very late Tuesday night going over the report of the beef court of inquiry and making it ready for publication. It is said that it will be given out within the next 36 hours. The president is entirely pleased with the verdict of the court and not only because its findings are satisfactory, but because the report itself is so strong and convincing in its language as well as exhaustive in its character that beyond doubt justifies its findings.

The president also believes that the report, by its convincing power, will, for the first time, set the vexed question before the public in the right light. In the first place, the president submitted 30 propositions to the court, these questions being the guidance in the inquiry. The court has brought in its findings in the form of categorical and explicit answers to each question. This has allowed the court to not only show how Gen. Miles has been wrong and his charges unfounded, but it is enabled to place before the public in a most convincing manner the exact conditions and truth in regard to the beef used by the army. The following examples give some idea about the report:

The president asked: "Did the commanding officers in Santiago or Porto Rico, or the major general commanding, report during the war that either the refrigerated beef or canned beef was an unfit article?"

The court replies that neither Gen. Miles nor any other commanding officer so reported.

When were these reports first made, and by whom?

This gave the court opportunity to point out that Gen. Miles made no report and never called attention to the matter until months after the war, when he made his allegations before the commission on investigation of the war and in the newspapers.

The story of the false case by Dr. Daly is set forth in detail and with such exactness that it is convincing.

"If the allegations from the general commanding are established I want the court to find the cause and fix the responsibility for the fact, that the guilty may be properly punished," the president commanded.

The report replies that the allegations have not been established in any degree. Gen. Miles and others who have shared in the origin and circulation of these unsubstantiated charges are not spared. Their conduct is made to appear in its true light. The president believes the complete exposure of this conduct to the public ought to be sufficient punishment. But he will insist that Gen. Miles and the other officers censured shall submit to the findings. The controversy must end now.
